

# quickMOUNT pro

The quickMOUNT pro is a advanced wall or pole mount adapter for small point to point and sector antennas.

The quickMOUNT pro gives possibility to turn antenna within 140° both in horizontal and vertical plane. With the quickMOUNT pro it is possible to perfectly set antenna alignment using integrated graduated scale.

- It's simple and low cost
- Adjustable horizontally and vertically
- Wall or pole mountable
- Two models available, one for SXT, OmniTIK, BaseBox or any other pole mountable device via the included adapter. A special model is also available for LHG

The quickMOUNT is very durable due to it's special plastic composite material - anvilNITE (TM).

## Specifications

Product code	QMP / QMP-LHG
Dimensions	95x88x112mm
Tube diameter	35 mm
Max tube diameter to which mount can be attached	65 mm
Maximum antenna weight	1.5 kg
Maximum wind load	100 N
Turn angle for MikroTik products	140°
Compatible devices	QMP: SXT, OmniTIK, other antennas that are designed to be pole mounted QMP-LHG: LHG 5
Material	anvilNITE™

## Includes

4X 6x30mm wall anchor

4X Self tapping screw

4X M6x20 button head screw (only QM-LHG)

4X M6 locking nut (only QM-LHG)

50-70mm hose clamp
