

XE3-4TN Wi-Fi 6/6E Access Point

802.11ax Tri-Radio 2x2/4x4 (2+2+4) Access Point with N-type Antenna Connectors

Outdoor High-Density, Future-Proof Wi-Fi

The XE3-4TN is an outdoor-rated tri-radio Wi-Fi 6/6E 2x2/4x4 access point (AP) designed to deliver future-proof performance and value for building next-generation networks. Wi-Fi 6 delivers faster and more efficient wireless network connections than previous-generation Wi-Fi technologies. Wi-Fi 6E extends the capacity of Wi-Fi into the 6 GHz band, more than tripling the wireless spectrum available.

Software-Defined Radio Provides Flexibility

The software-defined radio (SDR) provides flexibility to match the capability of the connected clients and to match the regulatory limits in the 6 GHz band. Where 6 GHz outdoor is not allowed, operate the XE3-4TN in dual 5 GHz mode to expand capacity in the allowed 5 GHz channels. Where 6 GHz outdoor is allowed, and Wi-Fi clients support it, use tri-radio mode to dramatically increase density in a reduced RF interference environment.

3-Year Warranty

The XE3-4TN comes with an industry-leading 3-year hardware warranty, providing return and repair service on the access point and multiple tiers of customer support, from the business day to extended hours and advanced replacement.

Cloud or On-premises Management

The XE3-4TN is supported by Cambium Networks' ONE
Network enterprise architecture managed by the cnMaestro™
Network Management System. cnMaestro uses a distributed intelligence architecture with cloud-first management and edge-intelligent Wi-Fi that self-optimizes for the RF environment. cnMaestro delivers a single-pane-of-glass management experience for enterprise Wi-Fi APs, cnMatrix™
Ethernet Switches, NSE Service Edge, residential service provider routers, Cambium's fixed wireless access solutions, and Cambium Fiber.

©2024 Cambium Networks, Inc. 1 cambiumnetworks.com

^{*}Automatic frequency coordination (AFC) is under development and will be a cloud service that will assign operating channel and power. AFC is required for 6 GHz operation outdoors.

Access Point S	Specifications*		
FCC	Ch 1–11, 36–64, 100–144, 149–165	Power	Typical power 25W (802.3at) Maximum power 62W with PoE out
ISED	Ch 1–11, 36–64, 100–116, 149–165		enabled and sourcing 30W
ETSI*	Ch 1–13, 36–64, 100–140, 149–173		Passive PoE output: 30V or 48V nominal at up to 30 Watts
ROW*	Ch 1–14, 36–64, 100–144, 149–177	Dimensions	220mm x 200mm x 86mm (8.66 in x 7.87 in x 3.39 in)
6 GHz Channel	FCC/IC/ROW: Ch 1–233 EU: 1–93	Weight	2,920 g (6.44 lb)
	EU: 1–93	MTBF	498,910 hours @ 25°C 132,618 hours @ 65°C
Radios	5 GHz/6 GHz 802.11a/n/ac/ax, 4x4 SW configurable	Mount Options	Pole or wall mount
	5 GHz 802.11 a/n/ac Wave 2/ax, 2x2	Security	Kensington lock slot
	2.4 GHz 802.11 b/g/n/ax, 2x2 BLE 4.1 , GPS receiver	LEDs	Multi-color status LEDs

Management

cnMaestro uses a distributed intelligence architecture with cloud-first management and edge-intelligent APs that self-optimize for the RF environment. cnMaestro delivers a single pane-of-glass management for Cambium broadband fixed wireless, cnMatrix Ethernet Switches, enterprise-grade Wi-Fi APs, NSE Service Edge, and residential service provider routers.

cnMaestro can be deployed on cloud or on-premises via a virtual machine.

To serve a growing market for advanced management and services functionality, Cambium Networks offers cnMaestro in two management tiers:

cnMaestro X

Paid subscription that includes:

- Advanced device management capabilities
- Deep packet inspection (DPI) application visibility and Control for 2,400+ apps
- RESTful management and statistics API
- Presence location push APIs
- Graphic reports
- Webhooks
- Cambium Care Pro for 24x7 technical support
- Accelerated access to L2 engineers and regular software updates

Assists

 Assesses the network's configuration and identifies weak security settings and proposes a fix to ensure the network configuration is up to the top security industry standards

X Assurance

- Helps to quickly identify network-wide connectivity issues by isolating every element of the client's lifecycle, either radio or network related
- Gives an overview quality index of the network and highlights each element's contribution to easily identify the worst offender
- Provides insight of probable causes and proposes fixes for the administrator to apply
- Provides individual client connectivity visibility throughout the entire lifecycle of its connection to easily identify each connection's result and highlight the failure reason, should there be any

EasyPass Portal with Additional Options

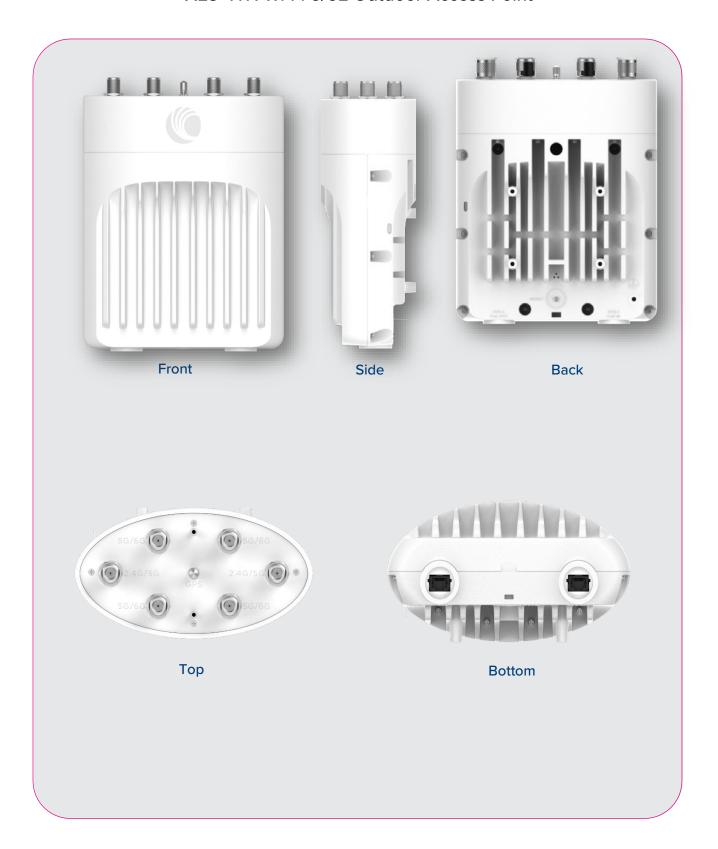

- Self-registration: Form-based access
- Sponsored guest: Guest ambassador-based access
- Paid access: Monetize the Wi-Fi access
- Microsoft Azure: Corporate user login
- Google Login: Web login using Google accounts

cnMaestro Essentials

License-free cloud management that delivers a disruptive total cost of ownership (TCO) for organizations of all sizes. Includes EasyPass for OneClick or voucher-based connection as well as WiFi4EU access.

	updates, and NBDS advance replacement for HW

LIMITED WARRANTY

Cambium Networks XE3-4TN Wi-Fi 6/6E Access Point includes a 3-year hardware warranty.

ABOUT CAMBIUM NETWORKS

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We make connectivity that just works.
